The art of hand care by Molton Brown

When it comes to skincare, our hands are the most essential yet most overlooked part of our everyday routine. From snoozing alarms in the morning to swiping through texts and social media, we're constantly experiencing and navigating life using our sense of touch. With winter around the corner and the constant use of sanitizers stripping away natural oils from our skin – treat your hands to Molton Brown's new hand-care collection. From fast-absorbing formulas to rich creams that keep your palms baby soft all day long – the new hand-care collection is a one-stop solution to all your palm problems.

The new care collection includes a range of aromatic hand washes, creams, and lotions. In washes and lotions, the signature Orange & Bergamot brings together a warm blend of Sevillian orange, neroli, and bergamot for a zesty, energizing scent. A regional favorite, the Mesmerizing Oudh Accord & Gold recreates a spiced forest with notes of rich Oudh accord, elemi, and cinnamon leaf oils with delicate gold leaves. Breezy and refreshing, a collision of Australian sea fennel with cypress and earthy cedarwood is infused with a salt-sprayed twist with the Coastal Cypress & Sea Fennel. At the same time, the Pink Pepperwood combines pepper pods with ginger and patchouli for a lingering sensual scent. The tropical Ginger lily features tamanu nut oil, warming ginger, and white lily extract. Finally, the Rhubarb & Rose reveals a sweet recipe of rhubarb, rose, and yuzu for a playful aroma.

Committed to protecting the planet, the brand offers a range of sustainable refillable bottles. A plastic-free alternative that is both long-lasting and elegant, the 200ml glass pump bottle has the same design as the fine liquid hand wash bottle. With a recognizable, bespoke Boston round shape and iconic lens, the logo is printed with high luster silver ink for a more refined finish. It's crafted from thick-cut glass, which is not only 100% recyclable but has a durable, weighted base for a beautiful feel that you'll cherish forever.

Keep your creams handy with the pocket-friendly Hand Cream collection. Best used to replenish lost hydration, light on your palms, and heavy on nourishment - the Flora Luminaire hand cream will leave your hands smelling divine all day long. Also available in four additional fragrances, these minis are perfect for frequent use as a little bit goes a long way.
