Dad sandal season: BIRKENSTOCK's Father's Day edit

Fathers have always been a constant source of support, love, and guidance, whether it is a baby's first steps, teaching the little one how to ride a bike, or getting them geared up for their first day of school. This Father's Day, BIRKENSTOCK reveals an edit of timeless 'dad-sandals' that make for a thoughtful present for your favorite man. Whether it's the closed-toe Boston or classic Arizona, this edit flaunts sleek designs in understated neutrals. Renowned for its comfort, the iconic footbed helps support the feet and ensures all-around wellbeing.

The iconic Arizona is given an upgrade this season with a camouflage pattern. At the same time, the Kyoto style is reinvented in new colorways. It features an individually adjustable buckle with a special wrap-effect that is inspired by the traditional Japanese kimono.

A selection of quirky minis for the little ones perfectly complements dad's footwear. Available in a variety of fun prints and bright pops of color, the kids' designs are at par in quality, with the standards set for adults, and help provide them with the additional support needed to enhance their posture.
