COOKS TO PERFECTION PRESERVES NUTRITION

When it comes to cooking, you need a special cookware that doesn't overcook, but also cooks with a closed lid in order to preserve the aroma and nutrition. Striking the perfect balance, here's Prestige Relish Cookware that lets you cook with a closed lid, so that you can enjoy even cooking, tender textures along with wholesome flavour and aroma.

THE SLOW COOKING SPECIALIST

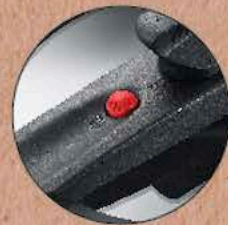

DIE CAST BODY

The sturdy die cast body of this cookware gives you long lasting durability, even heating and retains the heat for efficient cooking.

3 LAYER NON-STICK COATING

This unique feature eliminates the fear of food sticking to the cookware and it is metal spoon friendly.

PRESSURE REGULATOR

Controls pressure and periodically lets out the excess steam.

UNIQUE LID

The elegant glass lid gives you complete view of the food inside during the process and makes using it easy with a unique locking mechanism.

SAFETY VALVE

An additional steam safety valve is embedded in the lid. Any residual pressure is released when unlocking the lid.
